Windows® 95
Windows® 3.1
Macintosh®
CD-ROM

INSTALLING AND STARTING THE GAME

Windows 95 and Macintosh customers: No installation is required with the Windows 95 AutoPlay feature or Macintosh computer systems. Just insert the CD-ROM into the CD-ROM drive, wait for the AutoPlay screen and click the *Play* button (Windows 95), or double-click the *Activity Pack* icon on your desktop (Macintosh).

Windows 3.1 customers: Before playing *Putt-Putt® & Fatty Bear's Activity Pack*™, you must run our installation program. Insert the CD-ROM disc into your CD-ROM drive. Select the **Run...** command from the **File** menu in the Windows Program Manager. Type the following into the Command Line area: **D:\INSTALL.EXE.** (Replace the 'D' with your CD-ROM drive letter.) Click the **OK** button to start the installation. Follow the on-screen instructions. The installation program will create a *Humongous* group in the Program Manager. An icon will be placed in the group to allow you to start the game easily. When the installation is finished, click the **Restart Windows** button on the screen.

Important Note: In order to take full advantage of the 32-bit capabilities of your computer, the installation program must copy some Windows system files to your hard disk. This will take no more than 2.5 MB of hard disk space. The installation program does not copy any of the game files to your hard disk. You will still need to insert the *Putt-Putt & Fatty Bear's Activity Pack* CD-ROM in your CD-ROM drive each time you play.
